

Cylinder Head And Shoulders Above The Rest.

A CAST SAVINGS OF \$1,150,920.00

Compare CEC's revolutionary CleanCast® process with less efficient conventional cylinder head casting processes.

To see a detailed cost comparison, visit our website at cec-intl.com/CleanCast.

CEC has always risen above when it comes to innovation. Our latest innovation is *CleanCast*®, a new heat-treating process that eliminates the need for any baskets, racks or trays.

No longer do you have to invest in baskets, racks and trays or return conveyors. Nor maintain them. Nor replace them. Nor spend energy and time heating them. Introducing *CleanCast*® – a new high in innovation, a new low in your operating costs.

CEC

CONSOLIDATED ENGINEERING COMPANY

Innovative to the Core.
